

Bovine Intervention

Adam Kidder, Sarah Spitzer,
Joshua Wehrly, Cassandra Yaple

Elevator Pitch

- Too many games allow you to simply manipulate a character in an environment.
- Bovine Intervention is a game where you change the environment around a character to help ensure his survival.
- Uniquely designed for the mobile platform, this game is sure to be a success in the casual mobile gaming industry.

Demo

Competition

	Perpetual Movement	Intuitive Controls	Addictive gameplay	Clever Puzzles
Fall Down				
Bejeweled				
De Blob Revolution				

Next Steps

- Add more levels
- Add more control schemes
 - Accelerometer
 - More gesture support
- Optimizations
 - Load time is long
 - Game lags a little
- Put on Marketplace! 😊
